STACKING ARM CHAIR
W570 D525 H750 SH450 (mm)

The round shaped seat and the 4 legs are surrounded by the arm part and the back rest of the chair. «KEYSTONE» come from its structure, centered on the seat part. Every parts of the chair are fixed on a side of the seat which becomes the essential piece of the construction. Its strong personality does not prevent it from being stackable.

円形の座面、前後に開く脚、それを囲い込むアームと背板。この椅子を構成するすべてのパーツが座面横の一箇所で固定された構造のアームチェア。名前の「キーストーン」は、この全体を一点で支える「要」のこと。個性的な形でありながら、スタッキングも可能。
